Unequal Freedom  Evelyn Nakano GLENN 2009-06-30 The inequalities that persist in America have deep historical roots. Evelyn Nakano Glenn untangles this complex history in a unique comparative regional study from the end of Reconstruction to the eve of World War II. During this era the country experienced enormous social and economic changes with the abolition of slavery, rapid territorial expansion, and massive immigration, and struggled over the meaning of free labor and the essence of citizenship as people who previously had been excluded sought the promise of economic freedom and full political rights. After a lucid overview of the concepts of the free worker and the independent citizen at the national level, Glenn vividly details how race and gender issues framed the struggle over labor and citizenship rights at the local level between blacks and whites in the South, Mexicans and Anglos in the Southwest, and Asians and haoles (the white planter class) in Hawaii. She illuminates the complex interplay of local and national forces in American society and provides a dynamic view of how labor and citizenship were defined, enforced, and contested in a formative era for white-nonwhite relations in America.

Guanxi in Contemporary Chinese Business Jane Nolan 2020-12-30 Does guanxi still matter in 21st century Chinese business and management? Is it really still a culturally distinct form of social interaction, impenetrable by outsiders? Or does it simply resemble the countless other elite networks embedded in business and political spheres across the globe? This book answers these questions through a combination of new empirical insight and nuanced conceptual development. Research examples include investigations of multinational enterprise corporate performance, governance structures in Chinese private firms, organisational justice in Chinese banks, entrepreneurial learning and knowledge acquisition, and the gendered and sexualized nature of guanxi in the workplace. In terms of firm performance, there is still much to be gained by MNE and Chinese firms through cultivating guanxi in different domains, including the political sphere at both the local and national level. However, in terms of employee performance, there is evidence that some younger employees have a strong desire to move towards more merit-based systems and resent being judged on guanxi connections. Similarly, some women may find themselves shut out when attempting to navigate conventional guanxi relationships based on Confucian paternalism. In brief, these practices may also exclude a large pool of emerging talent. This book clearly shows that guanxi is a complex concept that holds a persistent power in Chinese societies. To understand it fully we must acknowledge the dynamic nature of both its dark and light sides. The chapters in this book were originally published in a special issue of the Asia Pacific Business Review.

Make It New Bill Beuttler 2019-10-01 As jazz enters its second century it is reasserting itself as dynamic and relevant. Boston Globe jazz writer and Emerson College professor Bill Beuttler reveals new ways in which jazz is engaging with society through the vivid biographies and music of Jason Moran, Vijay Iyer, Rudresh Mahanthappa, The Bad Plus, Miguel Zenón, Anat Cohen, Robert Glasper, and Esperanza Spalding. These musicians are freely incorporating other genres of music into jazz—from classical (both western and Indian) to popular (hip-hop, R&B, rock, bluegrass, klezmer, Brazilian choro)—and other art forms as well (literature, film, photography, and other visual arts). This new generation of jazz is increasingly more international and is becoming more open to women as
instrumentalists and bandleaders. Contemporary jazz is reasserting itself as a force for social change, prompted by developments such as the Black Lives Matter, #MeToo movements, and the election of Donald Trump.

Everyday Tonality II Philip Tagg 2014

Swing to Bop Ira Gitler 1985-11-07 This indispensable book brings us face to face with some of the most memorable figures in jazz history and charts the rise and development of bop in the late 1930s and '40s. Ira Gitler interviewed more than 50 leading jazz figures, over a 10-year period, to preserve for posterity their recollections of the transition in jazz from the big band era to the modern jazz period. The musicians interviewed, including both the acclaimed and the unrecorded, tell in their own words how this renegade music emerged, why it was a turning point in American jazz, and how it influenced their own lives and work. Placing jazz in historical context, Gitler demonstrates how the mood of the nation in its post-Depression years, racial attitudes of the time, and World War II combined to shape the jazz of today.

German Operetta on Broadway and in the West End, 1900-1940 Derek B. Scott 2022-06-23 Academic attention has focused on America's influence on European stage works, and yet dozens of operettas from Austria and Germany were produced on Broadway and in the West End, and their impact on the musical life of the early twentieth century is undeniable. In this ground breaking book, Derek B. Scott examines the cultural transfer of operetta from the German stage to Britain and the USA and offers a historical and critical survey of these operettas and their music. In the period 1900-1940, over sixty operettas were produced in the West End, and over seventy on Broadway. A study of these stage works is important for the light they shine on a variety of social topics of the period - from modernity and gender relations to new technology and new media - and these are investigated in the individual chapters. This book is also available as Open Access on Cambridge Core.
