Dancing on the Ceiling Stephen M. Silverman 2019-04-03 The first book to explore the life and extraordinary work of the legendary moviemaker who directed Singin' in the Rain, On the Town, and Funny Face, from the author of David Lean (“Silverman has captured one of the world's truly great filmmakers”–Billy Wilder). Stanley Donen is the man who forever changed the Hollywood musical, moving it away from the Busby Berkeley extravagance to a felt integration of the songs and dances. He is also the man who helped shape the sophisticated romance exemplified by Indiscreet and Charade. The author, with Donen's cooperation, has brilliantly revealed Donen's fifty-year career–first in the theater, next in Hollywood, and then abroad. We see Donen's collaborations with Fred Astaire, Cary Grant, Gene Kelly, and Frank Sinatra. And we see his work with Rodgers and Hart, Alan Lerner, Comden and Green, Roger Edens, Arthur Freed, Michael Kidd, and Bob Fosse. We watch Donen growing up in the South in the 1930s, seeking refuse at movies, watching Fred Astaire dance on the screen, and forever changed by it. And then at sixteen, fleeing to New York, where he lands his first job in the chorus of the groundbreaking musical Pal Joey, directed by George Abbott, starring Gene Kelly…and appearing next in Best Foot Forward. We follow Donen west to MGM (first he was a chorus boy, then assistant choreographer)...next embellishing Anchors Aweigh, dreaming up the almost technically impossible notion of having its star, Gene Kelly, dance with a cartoon character, Jerry the Mouse...and in the next decade making one great musical after another. We hear Donen's recollections of life and work on the sets of Singin' in the Rain, Royal Wedding, Funny Face, Seven Brides for Seven Brothers, On the Town, The Pajama Game, Indiscreet, Charade, Two for the Road, Arabesque, Bedazzled, and other movies he directed. We see him through the eyes of more than one hundred of his contemporaries whom, in addition to Donen himself, Silverman has interviewed at length, from Kay Thompson and Billy Wilder to Deborah Kerr, Audrey Hepburn, Debbie Reynolds, Gregory Peck, and Cyd Charisse. Dancing on the Ceiling gives, close up, a great director and a lost Hollywood on whose silver screen wit and charm abounded.

Consuming Dance Colleen T. Dunagan 2018-05-24 Dance in TV advertisements has long been familiar to Americans as a silhouette dancing against a colored screen, exhibiting moves from air guitar to breakdance tricks, all in service of selling the latest Apple product. But as author Colleen T. Dunagan shows in Consuming Dance, the advertising industry used dance to market items long before iPods. In this book, Dunagan lays out a comprehensive history and analysis of dance commercials to demonstrate the ways in which the form articulates with, informs, and reflects U.S. culture. In doing so, she examines dance commercials as cultural products, looking at the ways in which dance engages with television, film, and advertising in the production of cultural meaning. Throughout the book, Dunagan interweaves semiotics, choreographic analysis, cultural studies, and critical theory in an examination of contemporary dance commercials while placing the analysis within a historical context. She draws upon connections between individual dance-commercial and the discursive and production histories to provide a thorough look into brand identity and advertising's role in constructing social identities.

Hermes Pan John Franceschina 2012-06-12 Armed with an eighth-grade education, an inexhaustible imagination, and an innate talent for dancing, Hermes Pan (1909-1990) was a boy from Tennessee who became the most prolific, popular, and memorable choreographer of the glory days of the Hollywood musical. While he may be most well-known for his work at the Fred Astaire-Ginger Rogers musicals which he choreographed at RKO film studios, he also created dance for the Broadway stage, T-Bone Blues, and Gigi, Paramount, and later for television, winning both the Oscar and the Emmy for best choreography. In Hermes Pan: The Man Who Danced with Fred Astaire, Pan emerges as a man in full, an artist inseparable from his works. He was a choreographer deeply interested in his dancers' personalities, and his dances became his way of embracing and understanding the outside world. Though his time in a Trappist monastery proved to him that he was more suited to choreography than to life as a monk, Pan remained a devout and active member of the Catholic faith throughout his creative life, a person firmly convinced of the powers of prayer. While he was rarely to be seen without several beautiful women at his side, it was no secret that Pan was homosexual and even had a life partner. As Pan worked at the nexus of the cinema industry's creative circles during the golden age of the film musical, this book traces not only Pan's personal life but also the history of the Hollywood musical itself. It is a study of Pan, who emerges here as a benevolent perfectionist, and equally of the stars, composers, and directors with whom he worked, from Astaire and Rogers to Betty Grable, Rita Hayworth, Elizabeth Taylor, Sammy Davis Jr., Frank Sinatra, Bob Fosse, George Gershwin, Samuel Goldwyn, and countless other luminaries of American popular entertainment. Author John Franceschina bases his telling of Pan's life on extensive first-hand research into Pan's unpublished correspondence and his own interviews. Pan enjoyed one of the most illustrious careers of any Hollywood dance director, and because his work also spanned across Broadway and television, this book will appeal to readers interested in musical theater history, dance history, and film.

Dance Me a Song
Beth Genné
2018-05-30
Dancer-choreographer-directors Fred Astaire, George Balanchine and Gene Kelly and their colleagues helped to develop a distinctively modern American film-dance style and recurring dance genres for the songs and stories of the American musical. Freely crossing stylistic and class boundaries, their dances were rooted in the diverse dance cultures of Europe and the African-American migrants who mingled in jazz age America. The new technology of sound cinema let them choreograph and fuse camera movement, light, and color with dance and music. Preserved intact for the largest audiences in dance history, their works continue to influence dance and film around the world. This book centers them and their colleagues within the history of dance (where their work has been marginalized) as well as film tracing their development from Broadway to Hollywood, and continuing against the American history and culture of their era. This modern style, like the nation in which it developed, was pluralist and populist. It drew from aspects of the old world and new, “high” and “low”, theatrical and social dance forms, creating new sites for dance from the living room to the street. A definitive ingredient was the freer more informal movement and behavior of their jazz-age generation, which fit with song lyrics that poeticized slangy American English. The Gershwins, Rodgers and Hart, and others wrote not only songs but also dance routines that structured their choreography, giving a new prominence to the choreographer and dancer-actor. This book discusses how these choreographers were defined by directors like Vincente Minnelli and Stanley Donen and cinematographers like Gregg Toland, musicians, dancers, designers and technicians to synergize music and moving image in new ways. Eventually, concepts and visual-musical devices derived from dance-making would give entire films the rhythmic flow and feeling of dance. Dancing Americans came to be seen around the world as archetypal embodiments of the free-spirited optimism and energy of America itself.

Jumping the Color Line
Susie Trenka
2021-02-02
From the first synchronized sound films of the late 1920s through the end of World War II, African American music and dance styles were ubiquitous in films. Black performers, however, were marginalized, mostly limited to appearing in "specialty acts" and various types of short films, whereas stand-in was reserved for Whites. Jumping the Color Line discusses vernacular jazz dance in film as a focal point of American race relations. Looking at intersections of race, gender and class, it examines how the racialized and gendered body in film performs, challenges, and negotiates identities and stereotypes. Arguing for the transformative and subversive potential of jazz dance performance onscreen, the six chapters address a variety of films and performers, including many that have received little attention to date. Topics include Hollywood’s first Black female star (Nina Mae McKinney), male tap dance “class acts” in Black-cast short films of the early 1930s, the film career of Black tap soloist Jeni LeGon, the role of the Soundsies jukebox shorts and the 1940s, cinematic images of the Lindy hop, and a series of teen films from the early 1940s that appealed primarily to young White fans of swing culture. With a majority of examples taken from marginal film forms, such as shorts and B movies, the book highlights their role in disseminating alternative images of racial and gender identities as embodied by dancers – images that were at least partly at odds with those typically found in major Hollywood productions.

The Mythology of Dance
Harry Ellis
2013-08-18
The lights dim and soon the theatre becomes dark. The audience conversations end with a few softly dissipating whispers, and the movie begins. Nina Sayers, a young ballerina, dances the prologue to Tchaikovsky’s Swan Lake, a ballet expressing a story drawn from Russian folk tales about a princess who has been turned into a White Swan and can only be turned back if a man swears eternal fidelity to her. However, this is not that ballet. This is the beginning of Black Swan, a controversial movie employing symbolism in a complex weaving of film and music to recount the problems and paradoxes of everything from a female rite-of-passage to questions about where artistic expression should demand self-sacrifice and whether such sacrifice is worth the price. The dance floor is the stage of life, the place where physical actions take on the symbolic meanings of mythology and express the deepest archetypes of the human mind. This book explores how dance gives shape to those human needs and how it reflects, and even creates, the maps of meaning and value that structure our lives. Though the volume looks at all the forms of dance, it focuses on three main categories in particular: religious, social, and artistic. Since the American Musical and subsequent Musical Videos have both reflected and influenced our current world, they receive the most space—such acclaimed performers as Fred Astaire, Gene Kelly, Judy Garland, Ricky Nelson, Elvis Presley and Michael Jackson, such important composers and lyricists as Gershwin, Rodgers-and-Hammerstein, Porter, Berlin, Webber, Bernstein, the Beatles, and the Who, and such choreographers as Graham, Balanchine, Robbins and Fosse are examined in particular detail.

Charles Walters
Brent Phillips
2014-12-02
From the trolley scene in Meet Me in St. Louis (1944) to Fred Astaire and Ginger Rogers’s last dance on the silver screen ( The Barkleys of Broadway, 1949) to Judy Garland’s timeless, tuxedo-clad performance of “Get Happy” ( Summer Stock, 1950), Charles Walters staged the iconic musical sequences of Hollywood’s golden age. During his career, this Academy Award—nominated director and choreographer showcased the talents of stars such as Gene Kelly, Doris Day, Debbie Reynolds, and Frank Sinatra. However, despite his many critical and commercial triumphs, Walters’s name often goes unrecognized today. In the first full-length biography of Walters, Brent Phillips chronicles the artist’s career, from his days as a featured Broadway performer and protégé of theater legend Robert Alton to his successes at Metro-Goldwyn-Mayer. He takes readers behind the scenes of many of the studio’s most beloved musicals, including Easter Parade (1948), Lili (1953), High Society (1956), and The Unsinkable Molly Brown (1956). In addition, Phillips recounts Walters’s associations with Lucille Ball, Joan Crawford, and Gloria Swanson, examines the director’s uncredited work on several films, including the blockbuster Gigi (1958), and discusses his contributions to musical theater and American popular culture. This revealing book also considers Walters’s personal life and explores how he navigated the industry as an openly gay man. Drawing on unpublished oral histories, correspondence, and new interviews, this biography offers an entertaining and important new look at an exciting era in Hollywood history.
dance and theater scholars and artists, and embodiment as a negotiation of power dynamics with important stakes, these essays focus on the politics and poetics of the moving body in performance both on and off stage. Contemporary stage performances have sparked global interest in new experiments between dance and theater, and this volume situates this interest in its historical context by extensively investigating other such moments: from pagan mimes of late antiquity to early modern archives to Bolshevik Russia to post-Sandinista Nicaragua to Chinese opera on the international stage, to contemporary flash mobs and television dance contests. Ideologically, the essays investigate critical race theory, affect theory, cognitive science, historiography, dance dramaturgy, spatiality, gender, somatics, colonial, and postcolonial modes of inquiry. In terms of aesthetics, they examine many genres such as musical theater, contemporary dance, improvisation, experimental theater, television, African total theater, modern dance, new Indian dance theater aesthetics, philantroproductions, Butoh, carnival, equestrian performance, tanztheater, Korean Talchum, Nazi Movement Choirs, Lindy Hop, Bomba, Caroline Masques, political demonstrations, and Hip Hop. The volume includes innovative essays from both young and seasoned scholars who are working at the cutting edges of their fields. The handbook brings together essays that offer new insight into well-studied areas, challenge current knowledge, attend to neglected practices or moments in time, and that identify emergent themes. The overall result is a better understanding of the roles of dance and theater in the performative production of meaning.

Everything Is Choreography Kevin Winkler 2021
"Everything is Choreography: The Musical Theater of Tommy Tune is the first full-scale analysis of the work of Tommy Tune, and his place in a lineage of Broadway's great director-choreographers. The decade of the 1980s was considered a low point for the American musical. Tune's predecessors in the art of complete musical staging like Jerome Robbins, Bob Fosse, Gower Champion, and Michael Bennett were either dead or withdrawn from the Broadway arena. Yet it was the period of Tune's greatest success. The book examines how he adapted to an increasingly corporatized, high-stakes producing and funding environment. It considers how Tune kept the American musical a thriving, creative enterprise at a time when Broadway was dominated by British imports. It investigates Tune's work of the last twenty-five years, when he shifted his attentions to touring and regional productions, far from the glare of Broadway. Unlike his fellow director-choreographers, Tune also maintained a successful performing career, and the book details the deft balancing act that kept him working as a popular singer-dancer-actor while directing a series of striking and influential Broadway musicals"--

Dance on Its Own Terms
Melanie Bales 2013-05-06 Dance on Its Own Terms: Histories and Methodologies anthologizes a wide range of subjects examined from dance-centered methodologies: modes of research that are emergent, based in relevant systems of movement analysis, use primary sources, and rely on critical, informed observation of movement. The chapters emphasize dance history and core disciplinary knowledge in three categories of significant dance activity: performance and reconstruction, pedagogy and choreographic process, and notational and other written forms that analyze and document dance. Conceptually, each chapter also raises concerns and questions that point to broadly inclusive methodological applications. Engaging and insightful, Dance on Its Own Terms represents a major contribution to research on dance.

Guide to Dance in Film
Gale information guide library
1978
Dancefilm Erin Brannigan 2011-02-09 Dancefilm: Choreography and the Moving Image examines the choreographic in cinema—the way choreographic elements inform cinematic operations in dancefilm. It traces the history of the form from some of its earliest manifestations in the silent film era, through the historic avant-garde, musicals and music videos to contemporary experimental short dancefilms. In so doing it also examines some of the most significant collaborations between dancers, choreographers, and filmmakers. The book also sets out to examine and rethink the parameters of dancefilm and thereby re-conceive the relations between dance and cinema. Dancefilm is understood as a genre of dance that challenges familiar models of cinematic motion through its relation to the body, movement and time, instigating new categories of filmic performance and creating spectatorial experiences that are grounded in the somatic. Drawing on debates in both film theory (in particular ideas of gesture, the close up, and affect) and dance theory (concepts such as radical phrasing, the gestural anacrusis and somatic intelligence) and bringing these two fields into dialogue, the book argues that the combination of dance and film produces cine-choreographic practices that are specific to the dancefilm form. The book thus presents new models of cinematic movement that are both historically informed and thoroughly interdisciplinary.

Priscilla Peña Ovalle 2011 Dance and the Hollywood Latina asks why every Latina star in Hollywood history began as a dancer or danced onscreen. **Adapting The Wizard of Oz**

Danielle Birkett 2018-11-05 One of the most beloved film musicals of all time, The Wizard of Oz represents an enduring family favorite and cultural classic. Yet there is much more to the story than meets the eye, and the MGM movie is just one of many ways in which it has been represented. In this lively and wide-ranging book, editors Danielle Birkett and Dominic McHugh bring together insights from eleven experts into the varied musical forms this great American myth has taken in the past century. Starting with the early adaptations of L. Frank Baum’s story, the book also explores the writing, composition and reception of the MGM film, its importance in queer culture, stage adaptations of the movie, cult and genre. The Wiz, Stephen Schwartz’s Broadway blockbuster Wicked, and the cultural afterlife of the iconic Arlen-Harburg songs. What emerges is a vivid overview of how music - on stage and screen - has been an essential part of the story’s journey to become a centerpiece of American culture.

**American Dance**

Margaret Fuhrer 2015-11-30 The most comprehensive, beautiful book ever to be published on dance in America. “We look at the dance to impart the sensation of living in an affirmation of life, to energize the spectator into keener awareness of the vigor, the mystery, the humor, the variety, and the wonder of life. This is the function of the American dance.” Groundbreaking choreographer Martha Graham deeply understood the power and complexity of dance—particularly as it evolved in her home country. American Dance, by critic and journalist Margaret Fuhrer, traces that richly complex evolution. From Native American dance rituals to dance in the digital age, American Dance explores centuries of innovation, individual genius and collaborative exploration. Some of its stories - such as Fred Astaire dancing on the ceiling or Alvin Ailey founding the trailblazing company that bears his name - will be familiar to anyone who loves dance. The complex origins of tap, for instance, or the Puritan outrage against the dance that flourished during the early years of the United States, are as full of mystery and humor as Graham describes. These various developments have never before been presented in a single book, making American Dance the most comprehensive work on the subject to date. Breakdancing, musical-theater dance, disco, ballet, jazz, ballroom, modern, hula, the Charleston, the Texas two-step, swing—these are just some of the forms celebrated in this riveting volume Hundreds of photographs accompany the text, making American Dance as visually captivating as the works it depicts.

**Bob Fosse**

Charles River 2021-11-30 "The time to sing is when your emotional level is just too high to speak anymore, and the time to dance is when your emotions are just too strong to only sing about how you feel." - Bob Fosse By the turn of the 20th century, American entertainment was still preoccupied with European-style operetta, as embodied in the works of cellist-composer Victor Herbert. Traditional dance forms moved from European stories to the American prairie in Oklahoma by the late 1940s, and what was once the property of Bavarian princes became the singing standards of cowboys riding the corn fields in Oh What a Beautiful Morning and Out of My Dreams. In terms of original choreography, it was the age of Jerome Robbins that marked the first real departure from traditional dance on stage and in film. Robbins, born in 1918, became a five-time Tony winner and twice winner of an Academy Award. It was into this environment, featuring his West Side Story, Fiddler on the Roof, The King and I, and countless other productions, that an intriguing new choreographer made his entry riding the advent of American jazz. Only 10 years Robbin’s junior, Robert Louis Fosse, better known as Bob Fosse, followed his colleague’s example by mixing daring new jazz forms with virtually every traditional and popular genre to produce previously unseen modes of dance expression on Broadway and in film. In the 1960s, Fosse emerged as one of the leading dancers, actors, choreographers, directors, screenwriters and film directors on Broadway and in Hollywood. He became famous for conquering several fields on the musical stage and film simultaneously in a way that no one since the days of Busby Berkeley has done. The very notion of "only Busby Berkeley compares" to Fosse despite the fact that Berkeley was never a dancer, and that Fosse enjoyed eight Broadway hits to Berkeley’s one. Fosse forever changed the way the modern audience viewed dance on stage and film. Coupling his rise with the sexual freedom movement, he is known for an "intense, unbelievably driven, provocative, entertaining...sexual, physically demanding" choreographic style. Difficult for even the best dancers, the range of expression encompasses “joyous humor as well as bleak cynicism.”

**Dancing Women: Choreographing Corporal Histories of Hindi Cinema**

An ambitious study of two of South Asia’s most popular cultural forms cinema and dance historicizes and theorizes the material and cultural production of film dance, a staple attraction of popular Hindi cinema. It
explores how the dynamic figurations of the body wrought by cinematic dance forms from the 1930s to the 1990s produce unique constructions of gender, sexuality, stardom, and spectacle. By charting discursive shifts through figurations of dancer-actresses, their publicly performed movements, private training, and the cinematic and extra-diegetic narratives woven around their dancing bodies, the book considers the "women's question" via new mobilities corpo-realized by dancing women. Some of the central figures animating this corporeal history are Azurie, Sadhona Bose, Vyjayanthimala, Helen, Waheeda Rehman, Madhuri Dixit, and Saroj Khan, whose performance histories fold and intersect with those of other dancing women, including devadasis and tawaifs, Eurasian actresses, oriental dancers, vamps, choreographers, and backup dancers. Through a material history of the labor of producing on-screen dance, theoretical frameworks that emphasize collaboration, such as the "choreomusicking body" and "dance musicalization," aesthetic approaches to embodiment drawing on treatises like the Natya Sastra and the Abhinaya Darpana, and formal analyses of cine-choreographic "techno-spectacles," Dancing Women offers a variegated, textured history of cinema, dance, and music. Tracing the gestural genealogies of film dance produces a very different narrative of Bombay cinema, and indeed of South Asian cultural modernities, by way of a corporeal history co-choreographed by a network of remarkable dancing women.
