Prophet Muhammad (Peace Be Upon Him) in the Bible

Dr. S.M. Mohiuddin Habibi 2016-05-13

The greatest hope of all the religious groups that awaited for scores of centuries with a dogma of their own Holy Books which witnessed the glory and the majesty of that personality called as 'Muhammad' and 'Ahmad' – 'the Glorious' and 'the Praised', on whom be peace and lasting blessings, which certainly got fulfilled when he finally arrived on the stage of the history. The Scriptures of the Prophets that went before him ended their tasks by heralding the tiding of his coming. Despite the textual corruption of those ancient scriptures, the golden sayings were still preserved by ALLAH, the One True God as a signpost for the honest and noble readers. The seekers of truth! Be certain of the fact that Prophet Muhammad (Peace Be Upon Him) was the promised Prophet and the awaited saviour whom the Jews called as the King Messiah. His coming was prophesied by all the Prophets like Moses and Jesus (Peace Be Upon Them) long before his arrival, and he was also
mentioned in the Old and New Testaments. Likewise, the Far East Indian scriptures never failed to mention ‘his name and praises’ which certainly constitute a miracle pertaining to him and confirming his Prophethood. In the light of the above facts, how could a man of wisdom escape from this overwhelming thought? Or will he still deny this truth? Or will he still await and hope that from Heaven angels would come and guide him when the final Message has already been delivered by 'Muhammadur Rasul ALLAH' to the creation of ALLAH in general, on whom be peace and lasting blessings? Indeed, it is ALLAH, the Lord of the worlds Who Himself calls on us to acknowledge this truth in the Holy Quran: "O mankind! The Messenger (Muhammad, on whom be peace and lasting blessings) hath come unto you with the Truth from your Lord. Therefore believe; (it is) better for you. But if ye disbelieve, still, lo! Unto ALLAH belongeth whatsoever is in the heavens and the earth. ALLAH is ever Knower, Wise" - (4:170).

A History of Christian-Muslim Relations Hugh Goddard 2000 The relationship between the Christian and Muslim worlds has been a long and tortuous one. Over the course of the centuries the balance of power has swung in pendulum fashion at times the initiative seems to have lain with the Muslim community, with the Christian world simply being compelled to react to developments outside itself, while at other points the opposite has been true and Muslims have found themselves having to
respond to Christian challenges in different forms. Today Christians and Muslims comprise the world's two largest religious communities. Although they can coexist fairly peacefully, at times they still engage in violent confrontation, such as in the recent conflicts in Bosnia and the Sudan. This book investigates the history of the relationships between Christians and Muslims over the centuries, from their initial encounters in the medieval period, when the Muslims were the dominant group, through to the modern period, when the balance of power seems to have been reversed. This much-needed overview of the Christian-Muslim encounter places the emphasis on the context within which perceptions and attitudes were worked out and provides a depth of historical insight to the complexities of current Christian-Muslim interactions on different continents."

Ultimately hoping to
prove the existence and unity of God, this magnum opus is perfect for researchers and students of Islam as well as anyone interested in a broad analysis of the Qur'an and the main tenets of the Islamic faith.

**Cultivating Peace**

James O'Dea 2012-05-01

This profound guidebook reframes and expands the mission of building a global culture of peace. Going far beyond conventional techniques of conflict resolution, James O'Dea provides a holistic approach to peace work, covering its oft-ignored cultural, spiritual, and scientific dimensions while providing guidance suitable even for those who have never considered themselves peacebuilders. O'Dea is unique in his ability to integrate personal
experience in the world’s violent conflict zones with insights gathered from decades of work in social healing, human rights advocacy, and consciousness studies. Following in the footsteps of Gandhi and King, O’Dea keeps the dream of peace alive by teaching us how to dissolve old wounds and reconcile our differences. He strikes deep chords of optimism even as he shows us how to face the heart of darkness in conflict situations. His soulful but practical voice speaks universally to peace activists, mediators, negotiators, psychologists, educators, businesspeople, and clergy—and to everyday citizens.

Building Peace in America
Emily Sample 2020-08-16

America may not be at war, but it is not at peace. Recent public and political rhetoric have revealed the escalation of a pervasive and dangerous “us versus them” ideology in the United States. This powerful book is motivated by the contributors’ recognition of continuing structural violence and injustice, which are linked to long-standing systems of racism, social marginalization, xenophobia, poverty, and inequality in all forms. Calls to restore America’s greatness are just the most recent iteration of dehumanizing language against minority communities. The violation of the civil and human rights of vulnerable groups presents a serious threat to American democracy. These deeply rooted and systemic
inequities have no easy solutions, and the destructive nature of today’s conflicts in America threaten to impede efforts to build peace, promote justice, and inspire constructive social change. Acknowledging the complexity of building peace in the United States, this volume represents the first step in envisioning a more just, peaceful country—from the grassroots to the highest levels of leadership. The editors have brought together a diverse group of scholars, conflict resolution practitioners, civil society leaders, community peacebuilders, and faith leaders who are committed to pro-social change. Collectively, they examine how best to understand the current issues, deescalate destructive public rhetoric, undermine the “us versus them” polarity, and support those currently working for positive change. Together, the contributors share experiences and perspectives on the past, present, and future of peacebuilding; develop a vision for how we can collectively respond in our communities, campuses, and congregations; and catalyze action during this pivotal moment in America. Islam and the West Mohammed Jabar 2014-11-01 Since its origins in the deserts of Arabia fourteen centuries ago, Islam has grown until today it has one and a half billion followers, nearly a quarter of mankind. Today Islam is feared and distrusted by much of the Western world for its association with
religious extremism and terrorism, although the vast majority of Muslims believe only in peace, love and service to Allah and assert that extremism has no place in their faith.

**Republic in Peril**

David C. Hendrickson 2017-12

It has become a staple among critics of American foreign policy to refer to the United States's approach as "liberal imperialism." By this they mean that America's globalist agenda and its willingness to use force in theaters across the globe derives from its desire to evangelize the gospel of liberalism and thereby extend the reach of a US-dominated democratic capitalist order. These critics point to the presidency of Woodrow Wilson and trace how this agenda evolved over the next century. The dominance of liberal ideology, they argue, is so all-encompassing that virtually all of the mainvariants within the modern US foreign policy tradition, from anti-communism to neoliberalism to neoconservatism, fit under liberalism's umbrella. In Republic in Peril, the eminent foreign policy scholar David C. Hendrickson turns this thesis on its head. A trenchant critic of America's quest for global dominance, Hendrickson argues not only that liberalism is not the culprit, but is in fact where we should turn because it offers a powerful critique of both militarized interventionism and the US quest for full-spectrum global dominance. Covering all of the major episodes of the past century, he shows how the US has fully abandoned a tradition of republican...
liberalism that dates back to the Founders. The republican liberal tradition, which dominated US foreign policy for over a century, mandated non-intervention and the promotion of peace. This "golden rule" policy toward other nations served America well, he contends, and many of the pathologies that plague US foreign policy now - particularly its disastrous approach to the Middle East - can be traced to the desertion of the republican liberal tradition. He therefore advocates returning to the more collegial form of internationalism ("iso-internationalism") that preceded Wilsonianism. Combining both a rich historical overview of modern American foreign policy with a forceful indictment of the illiberal straitjacket in which US has bound itself, Republic in Peril provides a genuinely original defense of liberalism in the service of peaceful non-intervention - a position that contemporary critics of aggressive liberalism are sure to find surprising.

**Developing Culturally Relevant Leadership Learning**

Kathy L. Guthrie 2016-12-07 The notion of culturally relevant leadership learning builds upon the ideas of developing leader identity and leadership capacity of diverse students. Focusing on four areas of leadership learning: education, training, development, and engagement, this volume presents a model of culturally relevant leadership learning in order to develop all student leaders. It proposes infusing the leadership development
process with an understanding of how systemic oppression influences educational contexts and with an engagement in and across cultural differences. Our contexts and differences influence knowledge of self, others, cultural contexts and systems, and ultimately students’ knowledge and enactment of leadership. To this end, culturally relevant leadership development programs equip all students with the knowledge and skills to navigate diverse settings and lead culturally diverse groups and teams. Transforming the framework for how leadership programs are designed will result in contextually relevant leadership development programs and an increase in the breadth and depth of a diverse leadership cadre for our society.

The Jossey-Bass quarterly report series New Directions for Student Leadership explores leadership concepts and pedagogical topics of interest to high school and college leadership educators. Issues are grounded in scholarship and feature practical applications and best practices in youth and adult leadership education. 

Fourteen Points for the Twenty-First Century
Richard H. Immerman
2020-06-23 When the United States entered World War I, President Woodrow Wilson declared to Congress that the objective was not merely to bring "a new balance of power," but rather to bring a "just and secure peace" to the world by the end of the conflict. In this famous speech, known as "The Fourteen Points," Wilson offered the world a road map toward a more equitable
international system in the midst of unprecedented global conflict, including ideas on the interconnectedness of democracy, trade, and the concept of a forum for peaceably resolving international disputes. Even decades after the end of the First World War, Wilson's ideas remained important and influenced many of his successors. But now, in the twenty-first century, there are forces at work in the world that Wilson could never have imagined, and those forces call for a new plan toward peace. In Fourteen Points for the Twenty-First Century: A Renewed Appeal for Cooperative Internationalism, Richard H. Immerman and Jeffrey A. Engel bring together a diverse group of thinkers who take up Wilson's call for a new world order by exploring fourteen new directions for the twenty-first century. The contributors—scholars, policymakers, entrepreneurs, poets, doctors, and scientists—propose solutions to contemporary challenges such as migration, global warming, health care, food security, and privacy in the digital age. Taken together, these points challenge American leaders and policymakers to champion an international effort, not to make America great again, but to work cooperatively with other nations on the basis of mutual respect.

#WhoIsMuhammad

Mohammed Irfanullah
2015-02-28

Numerous thinkers, rulers, reformers, inventors, revolutionists, philanthropists.
Philosophers, great soldiers, scholars and founders of religions have come on the stage of this world and gone forever. MICHAEL H HART, A Christian by Faith, a contemporary thinker, philosopher, mathematician and historian has taken the trouble of listing out these historical figures and judged them by the degree of impact they made on human history. He has arranged a list of 100 top personalities of which he has placed Prophet Muhammad (Peace Be Upon Him) as number one in his book called THE 100. With a neutral view on the heroes of the world, when you judge them without any prejudice, you will have to give the first place only to Muhammad. If ever there is a community that adheres to what their leader taught fourteen centuries ago, that is this society groomed by the Prophet Muhammad. This society has been following the Prophet in all matters like the way of worship, family life, personal life or whatever department of life since the sixth century C.E. Nearly a quarter of the population of the world follow the Prophet and resolve all their problems according to his teaching. The number of his followers is ever increasing. There are millions of people on earth who care for the Prophet more than their wives, children, parents and other relatives. Anyone will have to admit to the fact that no one on earth other than Prophet Muhammad has been given such a position in the history. How could such a man, taken birth in a land, where the people were considered to be savage, rise to such an apex?
This is the book to give you the answers. This is not a history book, not a book to explain the spirituality of the Prophet. Not a book to define the principles and legislation of Islam. Not a book to astonish you with the miracles performed by the Prophet. But this is just a book to explain how this man born 1400 years ago is different from all other prominent leaders of the world. Why do the prominent non-Muslim historians, thinkers and leaders say in wonder that such a great leader like the Prophet has never been born in this world? This book will answer the question why more than a billion people on earth follow this Man Supreme to date without any flaw? This book will help those non-Muslim brothers and sisters who are earnest to know the truth about this Man Supreme, The Prophet. This book contains the essences that all people including the Muslim brothers and sisters need to know.

**The Evolution of God**

Robert Wright 2009-06-08

In this sweeping narrative that takes us from the Stone Age to the Information Age, Robert Wright unveils an astonishing discovery: there is a hidden pattern that the great monotheistic faiths have followed as they have evolved. Through the prisms of archaeology, theology, and evolutionary psychology, Wright's findings overturn basic assumptions about Judaism, Christianity, and Islam, and are sure to cause controversy. He explains why spirituality has a role today, and why science, contrary to conventional wisdom, affirms the validity of the
religious quest. And this previously unrecognized evolutionary logic points not toward continued religious extremism, but future harmony. Nearly a decade in the making, The Evolution of God is a breathtaking re-examination of the past, and a visionary look forward.

Peace Be Upon You
Zachary Karabell
2009-03-12
In a narrative that is at once thoughtful and passionate, an award-winning historian reveals the history of peaceful coexistence between Muslims, Christians, and Jews over the course of fourteen centuries until the present day. The harsh reality of religious conflict is daily news, and the rising tensions between the West and Islam show no signs of abating. However, the relationship between Muslims, Christians, and Jews has not always been marked with animosity; there is also a deep and nuanced history of peace. From the court of caliphs in ancient Baghdad, where scholars engaged in spirited debate, to present-day Dubai, where members of each faith work side by side, Karabell traces the forgotten legacy of tolerance and cooperation these three monotheistic religions.
have enjoyed—a legacy that will be vital in any attempt to find common ground and reestablish peace.

The New-century Bible 1922
Pakistan Labour Gazette 1990
God and His Demons Michael Parenti 2010-06-30 A noted author and activist brings his critical acumen and rhetorical skills to bear in this polemic against the dark side of religion. Unlike some popular works by stridently outspoken atheists, this is not a blanket condemnation of all believers. Rather the author's focus is the heartless exploitation of faithful followers by those in power, as well as sectarian intolerance, the violence against heretics and nonbelievers, and the reactionary political and economic collusion that has often prevailed between the upper echelons of church and state. Parenti notes the deleterious effects of past theocracies and the threat to our freedoms posed by present-day fundamentalists and theocratic reactionaries. He discusses how socially conscious and egalitarian minded liberal religionists have often been isolated and marginalized by their more conservative (and better financed) coreligionists. Finally, he documents the growing strength of secular freethinkers who are doing battle against the intolerant theocratic usurpers in public life. Historically anchored yet sharply focused on the contemporary scene, this eloquent indictment of religion’s dangers will be welcomed by committed secular laypersons and
progressive religionists alike.  
**Gabriel’s Extinguishing the Atomic Hell Series**  
Yousuf Gabriel  
2015-07-31

At a time unparalleled in history, humanity faces a threat of universal nuclear doomsday with an end result of total annihilation of life on earth. Being an enthusiast for global peace, with an extensive research background, Yousuf Gabriel explores the root cause of the nuclear problem. Probing deep into the realms of theology, philosophy, atomism, nuclear science, literature, and history, amid a mist of mystification regarding universal nuclear dilemma, Gabriel has tried to resolve the issue in the light of the Scriptures. He is a philanthropist who warns humanity about nuclear hell and wants to shun the two-edged sword of nuclear energy, either for war or so-called peaceful purpose.

Gabriel’s Extinguishing the Atomic Hell Series serves as the key to the future destiny of this now-doomed humankind. It is a case of dwindled religion and diminished faith versus science. It is based on a miraculous prophecy, rather a warning about nuclear hell given by the Quran more than fourteen centuries ago. The prophecy has described the characteristics of the age in which atomism was supposed to appear, as well as of the people who would become the victims of nuclear fire. It has also given the remedial measures and solutions to avoid this nuclear doomsday. The whole nuclear phenomena, with all its characteristic scientific features, is described in its entirety by this
prophecy of the Holy Quran. The major focus of criticism is the philosophy of Francis Bacon, who preferred "natural philosophy" over "moral philosophy" for "man’s right of dominion over nature for the material utility." Educate yourself about the dreadful outcome of adopting nuclear energy, whether for war or peaceful purposes. Learn how, after a prolonged use of nuclear energy, human and animal species may be converted to abhorrent monsters and chimeras. Enlighten yourself in the light of Scriptures how humanity can avoid this shameful and dreadful end. KHALID MALIK

The Contemporaneous India
Sat Sharma
2021-01-26
India is a lumbering, elephantine State that cannot be expected to pivot around its heels, irrespective of the capability, intentions and skills of its present mahout. That may explain why it took 67 long years to resurrect prime minister-ship by electing for the first time a deserving astute down to earth eminently-suited politician who had tasted poverty and hard work and seems to be the one to relate to citizens’ aspirations and needs. He possesses vision and necessary will to transform a fledgling country into a mega economy and world power. Narendra Modi, as a truly nationalistic politician, may be taller than Nehru. He became the first ever PM to visit INA Memorial in Singapore. And the first Indian in four centuries to inspect a ‘Guard of Honor’ from the British Army in London! However, thanks to Congress party’s dirty politics, he inherited a deeply divisive polity, rusted
three pillars of
democracy muddled with
long-nurtured anti-
nationalistic media.
Modi earned kudos
whichever nation he
visited. His maiden
American trip four
months after taking over
was a raving success
hitherto not achieved by
any of his predecessors
that included three
trips each by Nehru and
Indira and double that
number by Modi’s
incompetent and
ineffectual immediate
predecessor – a puppet
in the hands of his
Italy-born white
Catholic lady boss!

During the 18 months,
Modi has been showing
promise by undoubtedly
raising the stature of
the country globally.
Back home, deeply and
widely pervading
corruption,
divisiveness, illiteracy
and lack of nationalism
are sinister and life-
threatening ailments

needing drastic cure. We
are corrupt and,
therefore, elect corrupt
politicians. The latest
is Bihar's humongous
mandate on communal
lines: First-time MLA
sons of a convicted (for
corruption) politician
become ministers – the
ninth class-fail deputy
CM and 12th class as
health minister. Till
the time we become
dutiful, nationalistic
and sincere the status
quo is not going to
change. We must
‘educate’ our masses in
general but our
youngsters who are the
future custodians of the
country in particular
but not up to the mark
in many ways. The
generations born after
independence have to
understand the true
account/value of the
hard-won freedom and
imbibe our civilization
and culture. Only then
the misconceptions on
created ‘fictional’
heroes can be rectified. Only then our younger folks can appreciate the importance of their duties to their motherland. Our politicians must become Hindustanis first and foremost, start working for the benefit of their compatriots rather their own families. They must forthwith stop eschew vote-bank politics. Only when all of us are patriotic enough we can offer a united front against biggest threat to us from terrorism incited and inflicted by Pakistan for decades; aided and abetted by so many anti-nationalistic political parties who also will have to mend their nasty ways and allow the parliament to function smoothly so that agenda on economic reforms can move forward. All of us have to contribute wholeheartedly for progress and development. Every citizen irrespective of caste/creed must exhibit an apparent firm and free will to work towards the betterment of the land. We must weed out the mindset where people live here but their loyalty lies elsewhere as dictated by the leaders of their faith. No religious law can take priority over the national law. There has to be common civil code so that everyone is treated equally. The way things stand today, we are only going down and down. This will continue unless we correct our mindset and course radically! Hindus’ extreme tolerance during last millennium led to rise of intolerant Islam aided and abetted by Congress and its cronies and like-minded parties. Hindustan has been looted and marauded by foreigners and bled high and dry of its richness and natural resources.
Alas! This loot continued after independence by parties in power. Modi has somehow disturbed the looters’ political thought process by challenging it with their ideology and hence has been declared 'Intolerable' since they see no future if Modi continues the good work for his motherland. I do hope that our people wake unitedly to become truly democratically independent nation. Our paid, purchased and partisan media will have to become neutral, non-biased and nationalistic. If not contained, our electronic media, left liberals and pseudo-seculars will ruin the country. The anti-nationalistic politicians must shun their derogatory practices of belittling the country in every forum and seriously consider their duty and debt to their motherland as their primary function. Otherwise, we are not far from our doomsday. Thus it is now or never for us Hindustanis to rise and stand erect steadfast!

Understanding Christian-Muslim Relations

Clinton Bennett 2008-04-10

For centuries Christians and Muslims have engaged with each other in manifold ways, peaceful and otherwise, be it in scholarly study, or in war and colonization. Today, Christians represent an influential body of opinion that largely perceives Islam, post 9/11, as a threat. Yet Muslims represent approximately one third of the world's population. Improved understanding between Christians and Muslims is therefore crucial and a prerequisite for universal peace and justice. This book aims
to investigate Islam's place in the world, Muslim aspirations vis-a-vis non-Muslims and the realities of how Muslims are perceived and how they perceive others. Each chapter analyses accessible texts from central thinkers and commentators, broadly split into two camps: confrontational or conciliatory. Christian-Muslim relations are set in the wider context of civilizational, geopolitical and economic interaction between the Muslim world and the historically Christian West.

Interfaith Leadership
Eboo Patel 2016-07-05 A guide for students, groups, and organizations seeking to foster interfaith dialogue and promote understanding across religious lines In this book, renowned interfaith leader Eboo Patel offers a clear, detailed, and practical guide to interfaith leadership, illustrated with compelling examples. Patel explains what interfaith leadership is and explores the core competencies and skills of interfaith leadership, before turning to the issues interfaith leaders face and how they can prepare to solve them. Interfaith leaders seek points of connection and commonality—in their neighborhoods, schools, college campuses, companies, organizations, hospitals, and other spaces where people of different faiths interact with one another. While it can be challenging to navigate the differences and disagreements that can arise from these interactions, skilled interfaith leaders are
vital if we are to have a strong, religiously diverse democracy. This primer presents readers with the philosophical underpinnings of interfaith theory and outlines the skills necessary to practice interfaith leadership today.

Reconciling the Bible and Science Lynn E. Mitchell 2009-12-10
Evidence of an apparent conflict between religion and science is everywhere: Time Magazine features a debate between a nationally known atheist author and an imminent Christian scientist, a newspaper article condemns those who advocate intelligent design, legislatures fight over what can and cannot be taught in public schools, courts intervene in cases that involve issues of faith and science, three of ten candidates in a presidential debate say they do not believe in evolution while the other seven say they do. The controversy affects national and local policy, influences education, and, some argue, could degrade our way of life if scientific advancement or religious belief and practice are stifled. The conflict is being waged on two levels. The public level is a continuing war among relatively few activists. We see warring books and articles, contentious town meetings, lawsuits, legislative efforts, private schools, and other efforts by each side to win and make sure the other loses. The other level of the debate, like the submerged portion of an iceberg, is larger, more insidious, and ultimately more hurtful to society. This
conflict is within the hearts and minds of a vast number of people who sense an “either/or” conflict between the religion they believe and the science they see, hear, and experience. This conflict has no clear battle lines and no obvious winner or loser, but a high mortality rate that includes all those people, particularly young people, who simply opt out. Some check out of religion and become “de-facto agnostics” who claim a faith when the chips are down, but don't practice it or get anything from it. Others check out of science and reason. They allow their faith and their views about the Bible to kill their intellectual curiosity, and they look scientific truth in the face but refuse to see it. For the most part, this conflict boils down to different beliefs among people of faith about scripture, evolution, and the “isms” that each has spawned. Most interpret the Bible and understand science in ways that make finding an intellectually satisfying resolution to the presumed conflict frustrating and even scary. Any attempt to reconcile the two requires learning new words that initially sound like so much gobbledygook, reading an array of books and articles that usually present only one side of a multi-faceted issue and tend to obfuscate rather than enlighten, and making judgments without all the facts. The purpose of Reconciling the Bible and Science: A Primer on the Two Books of God is to take the fog out of the controversy by telling in simple
language the story of the “Book of Scripture” and the “Book of Nature.” The work is aimed primarily at Christians and seekers who don't need proof of God but do seek a better understanding of the relationship between their faith and science. It will be helpful to those who are having difficulty reconciling their faith with what they learn about science, those whose faith prevents them from fully exploring science with an open mind, those who oppose the teaching of evolution because they feel it is a threat to faith, or others who just don't know where to turn. Reconciling the Bible and Science is based on a college level course that Lynn Mitchell has taught for many years in colleges, churches, and on television. It explains that faith in God and a belief in the Bible do not preclude acceptance of science, and that the two can in fact co-exist—perhaps even complement one another. It does not try to convince readers of the validity of evolution or of a particular approach to religious practice, but maintains that we all should be free to make our own judgments about faith in God without being constrained by anything science can discover, and about science unfettered by presumed constraints of the Bible. An “Introduction” piques the readers' interest, introduces the debate, and frames the issue as one involving Waging Peace on Islam Christine Mallouhi 2002-02-04 Christine Mallouhi, who married into a Muslim family and has lived much of her life in the Middle East, uses St. Francis of
Assisi as an example of how Christians can approach Muslims with acceptance, love and the gospel of Christ.

Safeguarding the Stranger Jayme R Reaves 2017-08-31 In our troubled world, protective hospitality is tragically necessary and requires informed shared action and belief on behalf of the threatened other. In Safeguarding the Stranger, Jayme R. Reaves argues that protective hospitality and its faith-based foundations, as seen in the Abrahamic traditions of Judaism, Christianity, and Islam, merit greater theological attention. Reaves shows that the practice of protective hospitality in Christianity can be enhanced by a better
understanding of Jewish and Muslim practices of hospitality, as well as of their codes and etiquettes related to honour. Safeguarding the Stranger draws on a contextual and political theological approach, informed by liberation and feminist theologies as viewed through the lens of a co-operative and complementary theological view, which is influenced by inter-religious, Abrahamic, and hospitable approaches to dialogue, forecasting the positive role that religions can play in resolving conflicts.

The Rays Collection Rendering Divine Names on Coins David Bentley 2019-10-22 After Jesus glanced at the temple coin, he said, "Render to Caesar." This book's title and theme are based upon Jesus' command to give allegiance to both the state and God. Coauthor David Bentley is the historian-theologian who reads and translates the coins' messages. Coauthor Brad Yonaka is the geologist-scientist who finds the copper, silver, and gold coins which are on display in nearly one hundred photo-figures throughout the text. Our God is represented by the Abrahamic faiths...
(Judaism, Christianity, and Islam); his divine name has appeared on coins since biblical times. Even the most theologically astute readers will be surprised by our introduction of Paul, Priscilla, and Aquila as "tabernacle-makers" not "tent-makers." Greek and Roman gods and goddesses, a few ancient Persian empires, the Islamic caliphs, and Qur'anic messages are present in this book. Each stamped their impressions on civilization. When Lincoln added "In God We Trust" during the Civil War, was it as Jesus commanded, a combination of honoring divine and governmental authorities? Or was it a counterfeit trust in dead presidents or self? **Terrorism, Crime, and Public Policy** Brian Forst 2008-10-20 Terrorism, Crime, and Public Policy describes the problem of terrorism; compares it to other forms of aggression, particularly crime and war; and discusses policy options for dealing with the terrorism. It focuses on the causes of terrorism with the aim of understanding its roots and providing insights toward policies that will serve to prevent it. The book serves as a single-source reference on terrorism and as a platform for more in-depth study, with a set of discussion questions at the end of each chapter. Individual chapters focus on the nature of terrorism, theories of aggression and terrorism, the history of terrorism, the role of religion, non-religious extremism and terrorism, the role of technology, terrorism throughout the modern world, responses to
terrorism, fear of terrorism, short-term approaches and long-term strategies for preventing terrorism, balancing security and rights to liberty and privacy, and pathways to a safer and saner 21st century.

Fairy Tales in Contemporary American Culture
Kate Christine Moore Koppy 2021-02-15
In Fairy Tales in Contemporary American Culture: How We Hate to Love Them, Kate Koppy shows that fairy tales have become a key part of the American secular scripture by analyzing contemporary fairy tale texts as both new versions in a particular tale type and as wholly new fairy-tale pastiches.

At the Feet of Abraham
Levi UC Nkwocha 2020-11-30
This book advances an Abrahamic “asymmetric-mutual-substitutive” model of hospitality as a practical approach to establish peaceful coexistence between Muslims and Christians. The merits include its helpful survey of the four models of interfaith dialogue and its clear exposition of
the dialogue of life; its constructive use of the philosophy of Levinas, particularly in supporting its vision of asymmetrical moral responsibility among Muslim and Christians; and its familiarity with an extensive philosophical literature on alterity, gift-exchange, and responsibility. The research also demonstrates strong command of the relevant Christian and Muslim scriptures and Catholic teaching on interfaith relations, in addition to a wide range of background material on African Ubuntu spirit, visible in Nigerian sociocultural and religious interdependent relations. Through a consistent engagement of these philosophical, ethical, and cultural dimensions, the Abrahamic theology of hospitality is ingeniously crafted to fill the age-old gap—mutual inability to deal with religious otherness. At once, the book provokes further scholarship inquiries on and around the identified concerns. Its commonness and concreteness, with the proposed respect for each other’s faith commitment, further underscores its quality.

Teaching Interreligious Encounters

Marc A. Pugliese 2017-08-01

In Teaching Interreligious Encounters, Marc A. Pugliese and Alexander Y. Hwang have gathered together a multidisciplinary and international group of scholar-teachers to explore the pedagogical issues that occur at the intersection of different religious traditions. This volume is a theoretical and practical guide for new teachers as well as
seasoned scholars. It breaks the pedagogy of interreligious encounters down into five distinct components. In the first part, essays explore the theory of teaching these encounters; in the second, essays discuss course design. The parts that follow engage practical ideas for teaching textual analysis, practice, and real-world application. Despite their disciplinary, contextual, and methodological diversity, these essays share a common vision for the learning goals and outcomes of teaching interreligious encounters. This is a much-needed resource for any teacher participating in these conversations in our age of globalization and migration, with its attendant hopes and fears.
