Television and Political Advertising Frank Biocca 2013-12-16 This volume represents one of the first major scholarly effort to unravel the psychological and symbolic processing of political advertising. Utilizing survey, experimental, qualitative, and semiotic methodologies to study this phenomenon, the contributors to Television and Political Advertising trace how political ads help to interpret the psychological reality of the presidential campaign in the
minds of millions of voters. A product of the National Political Advertising Research Project, this interdisciplinary effort is valuable to researchers in advertising, communication, and consumer psychology since it helps define future work on the relationship between television, politics, and the mind of the voter. This volume, Television and Political Advertising: Psychological Processes, is the first of two, and covers such topics as Models and Theories for Viewing Political Television; Psychological Processing of Issues, Images, and Form; Differential Processing of Positive and Negative Advertising; and The Psychological Contexts of Processing.

Subsurface Characterization and Monitoring Techniques
J. Russell Boulding
1996-07 Provides information on where to go to find detailed guidance on how to use these techniques. Covers: remote sensing & surface geophysical methods; drilling & solids sampling methods; geophysical logging of boreholes; aquifer test methods; ground water sampling methods; Vadose Zone (VZ) hydrologic properties: water state, infiltration, conductivity, & flux; VZ water budget characterization methods; VZ soil-solute/gas sampling & monitoring methods; & chemical field screening & analytical methods. Charts, tables, graphs & drawings.

Translate schematic diagrams into today's cutting-edge electronics Navigate the roadmaps of simple electronic circuits and complex systems with help from an experienced engineer. With all-new art and demo circuits you can build, this hands-on, illustrated guide explains how to understand and create high-precision electronics diagrams. Find out how to

Life’s Essential Primer Robert C. Trautman 2015-04-13 Your current level of success (or failure) is the product of the choices you’ve made throughout your life. “Life’s Essential Primer” provides a practical guide designed to help you make the choices that lead most directly to greater success and happiness. Ideally, school aged children should read, or be taught, the principles and practices detailed in Section 1. It will give them an essential framework within which they can plan and prepare their educational paths efficiently, to become successful, well-mannered, responsible adults, while avoiding the common pitfalls along the way. Unwittingly taking just such a path from an early age with meager means, the author was able to realize his own dreams. He now offers you the benefit of his experiences with the hope that your life will become filled with success and happiness, as well. It’s never too late to get your life on track for greater wealth, both monetarily and emotionally. Sections 2 through 5 provide a series of amusing real-life adventures, illustrating the practical application of Section 1.
Finally, Section 6 wraps it all up by showing how early choices affect events later in life. Success is a choice. Make it yours!
