Student Nationalism in China, 1924-1949 Lincoln Li 1994-01-01 Li examines the critical role of the younger generation as a political force, influenced by the cultural and ideological debates during China's reunification in 1927 and again in 1949. He focuses on key organizations to illustrate how political parties turned explosive, national feelings into an organized political force. Li shows how Chinese student nationalism, despite its radical image, represents a prominent feature of continuity in Chinese sociopolitical culture.

Strengthening Forensic Science in the United States National Research Council 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science
disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

**Radio Mystery and Adventure** Jim Harmon 1992 From the 1920s to the 1950s, radio was the entertainment source for millions. Two of the primary themes of radio serials were mysteries and adventure. This is a detailed analysis of the important programs in these genres--"Jack Armstrong," "The Green Hornet," "Sergeant Preston," "Tom Mix," and more. Each entry includes type of series, broadcast days, air dates, sponsors, network, cast and production credits, and a comprehensive essay. When, as often happened, the series landed in other media, that is examined as well.

**Studies in Ecstatic Kabbalah** Moshe Idel 1988-01-01 This book presents important topics regarding the more mystical trend of Kabbalah--the ecstatic Kabbalah. It includes the mystical union, the world of imagination, and concentration as a spiritual technique. The emphasis in the text is on the interaction between the "original" Spanish stage of Kabbalah and Muslim mysticism in the East, mainly in the Galilee. The influence of the Kabbalistic-Sufic synthesis on the later developments of Jewish
mysticism is traced, thereby providing a more precise understanding of the history of Kabbalah as an interplay between the theosophical and ecstatic mystical experiences.

**Women as Weapons of War** Kelly Oliver 2007

From the female soldiers of Abu Ghraib prison to Palestinian women suicide bombers, women and their bodies have been "powerful weapons" in the Afghanistan and Iraq wars. Kelly Oliver reveals how the media and the George W. Bush administration used metaphors of weaponry to describe women and female sexuality and forge a link between vulnerability and violence. Oliver analyzes the discourse surrounding women, sex, and gender and the use of women to justify America's decision to go to war. She also considers the cultural meaning, or lack of meaning, that lead female soldiers at Abu Ghraib to abuse prisoners "just for fun," and the commitment to death made by women suicide bombers. She examines the pleasure taken in violence and the passion for death and what kind of contexts creates them. Oliver concludes with a diagnosis of our fascination with sex, violence, and death and its relationship with live news coverage and embedded reporting, which naturalizes horrific events and stymies critical reflection.

**Inside the Green Lobby** Bernard C. Melewski 2022-02-01

A veteran environmental lobbyist reveals the behind-the-scenes struggles to address threats to the future of New York's Adirondack Park. Inside the Green Lobby recounts the behind-the-scenes efforts, both at the State Capitol in Albany and the halls of Congress, of a lobbyist for a major environmental advocacy group. Bernard C. Melewski worked to save the six-million acre Adirondack Park from twin threats to its future: the devastating damage from acid rain and the sudden breakup of massive private land holdings that had been intact for almost one hundred years. Starting
with the political uproar ignited by the recommendations of New York Governor Mario Cuomo’s 1990 Adirondack Park Commission, and the rejection by the public of a new environmental bond act, Inside the Green Lobby documents the events that led to the sudden acquisition by New York State of tens of thousands of acres within the park that the public now enjoys. From strategy sessions with lobbyists to private meetings with legislators, governors, members of Congress, and even the President of the United States, Melewski recounts engaging and entertaining stories that introduce how environmental advocates successfully pursue legislative and policy change. Bernard Melewski is an environmental attorney, organic farmer, and farm winery owner in Altamont, New York.

Disappearing Persons Benjamin Kilborne 2002-01-01 In Disappearing Persons, psychoanalyst Benjamin Kilborne looks at how we control appearance as an attempt to manage or take charge of our feelings. Arguing that the psychology of appearance has not been adequately explored, Kilborne deftly weaves together examples from literature and his own clinical practice to establish shame and appearance as central fears in both literature and life, and describes how shame about appearance can generate not only the wish to disappear but also the fear of disappearing. A hybrid of applied literature and psychoanalysis, Disappearing Persons helps us to understand the roots of the psychocultural crisis confronting our increasingly appearance-oriented, shame-driven society.

Women's Secrets Helen Rodnite Lemay 1992-10-14 Women’s Secrets provides the first modern translation of the notorious treatise De secretis mulierum, popular throughout the late middle ages and into modern times. The Secrets deals with human reproduction and was written to instruct celibate medieval monks on the facts of life and some of the ways of the universe. However, the book had a much more far-reaching influence. Lemay shows how its message that women were evil, lascivious creatures built on the misogyny of the work’s Aristotelian sources and laid the groundwork for serious persecution of women. Both the content of the treatise and the reputation of its author (erroneously believed to be Albertus Magnus) inspired a few medieval scholars to compose lengthy commentaries on the text, substantial selections from which are included, providing further evidence of how medieval men interpreted science and viewed the female body.
